**International Travel maps : 1. Mexico: Baja California Travel Reference Map 1:650,000 (International Travel Maps)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised 1. Mexico: Baja California Travel Reference Map 1:650,000 (International Travel Maps):

2 of 2 people found the following review helpful. Perfect for what it is, but not detailed enough for me. By bluebouviergirl  
It is in perfect condition, it is waterproof, it is in color, it is very clearly printed, has a large symbol key, has blow ups of Mexicali, Ensenada, La Paz, Cabo San Lucas, and San Jose del Cabo (?). so it's my fault if I don't find it detailed enough. I believe if you know what 1:650,000 will get you, then you will be super pleased. On one side is N. Baja, on other side is S. Baja. I think it would be a valuable "over view" map to help plan your drive trip. However, one would want a more detailed map in addition.  
2 of 2 people found the following review helpful. Good map with lots of information about roads  
By Sally Alves  
Good map with lots of information about roads, cities, beaches, historical spots, gas stations etc. Made of heavyweight paper, map is easy to read and handle (plus fold back to pocket size). The only negative was the lack of an insert graph giving the distance between cities and that is important to the traveler. AAA also has a Baja map that is much lighter weight paper but does give the distance chart. However, the quality of this map is much better.  
0 of 0 people found the following review helpful. Map is way out of date. By BlueBellBlue  
It's a nice map but it's old. I didn't notice that it was 5 years old when I ordered it, my bad. I figured it out right away, however, as the road between Puerto Penasco and Golfo de Santa Clara is missing. :( I like the look of it and the paper is sturdy and tear proof, but it's in dire need of an update. As it is, it's not really worth it.

A waterproof and double-sided road map of Baja California Peninsula to plan your trip, to prepare your itinerary, and to travel independently in this Northwest Mexican region. Touristic information: airports, border crossings, gas/filling stations, sea ports, hotels, camping sites, archaeological sites, post offices, libraries, waterfalls, beaches, cave paintings and petroglyphs, wells or springs, volcanoes, whale watching, mines and quarries, surfing, kayaking, museums, scenic viewpoints, points of interests, lighthouses. The legend is in English and in Spanish.

About the Author  
The long peninsula on the north-western edge of Mexico (the lost province of Alta California being the temporary possession of that country to the north) is a favourite travel destination for visitors from all over the world, whether they be day-trippers crossing into Tijuana, RVers headed for the Gulf, 4x4ers wanting to explore the dreaded Viscaïno Desert, or intrepid explorers wanting to experience a part of Mexico that has always prided itself as being a little different. This digitized, double-sided map is based on Kevin Healey's efforts, but has been updated several times since his death, and Lan and I love going to Baja to research updating material. We hardly ever find anything, but we have a wonderful time doing it! Baja is the ideal get-away from it all atmosphere very little traffic, gorgeous beaches, historic towns and mission sites, great food, fishing, and snorkeling. Double-sided, waterproof
