Casey Hawley : 100+ Winning Answers to the Toughest Interview Questions (Barron's Business Success Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised 100+ Winning Answers

to the Toughest Interview Questions (Barron's Business Success Series):

0 of 0 people found the following review helpful. Really Helpful
By Linda S. Marty
I hadn't interviewed for a position in 6 years. When I applied for a position for my city, I knew it was going to be tough to nail the position. Out of 50 people, I got the job offer! My experience was helpful and my preparation was key. However, the questions in this book helped me tremendously because I hadn't interviewed in so long. Also, it showed me why I probably wasn't hired for other positions in the past that I had interviewed for and how I can improve on my communication. It isn't just your skills that are key, rehearsing before interviewing is very very important!
This book is great if you are looking to interview for a new position!
0 of 0 people found the following review helpful. I bought this book to help me formulate some better responses to the most common job interview questions
By Julian Cavazos
After I got laid off from my job, I bought this book to help me formulate some better responses to the most common job interview questions, and it was actually very helpful. The way the answers were given, and the variety of the questions, helped me to develop some better responses, and ultimately help me get the job I have now.
0 of 0 people found the following review helpful. My interview question handbook.
By JIMBO
I've been relying on this book as a crash course on being aware of the tough interview questions for years. When I lost my first copy, I felt naked when considering approaching the interview process again without it, so I bought another one...haha! If I lose this one, I'll buy a third one; it's simply that important to my interview routine. I've been asked the questions posed in this book, and had I not read the "how to" with respect to the responses desired by interviewers, I would've been stammering for an answer. I highly recommend this compact and easy-to-read solution to the tough interview questions.

Titles in Barron's Business Series are of special interest to newcomers to the corporate world, offering them practical advice on career advancement. The books are written by experienced business professionals and cover a wide range of business topics, from effective methods of communication with business colleagues to dealing with difficult people. Updated to keep pace with today's business marketplace, this book helps job interviewees meet the challenges of that all-important employment interview. For instance, what's the best answer to give a job interviewer when he asks about your background and you know you have less experience than other candidates? The author offers good answers for this and for many equally tough questions. She also presents general tips that apply to all interview questions and advises on ways to give answers that are clear, direct, and to the point.
