CsabaThe appearance of the book is excellent: both the graphics and the audiotape are excellent ways to help you learn the expressions. However, during my stay in the US, I found that most of the idioms are rarely used.If you are a foreigner, and want to learn how to speak American English, get 'Street Talk 1' instead.0 of 0 people found the following review helpful. Idioms, schmidiums!By Bruce LublinerI do like the book, but I've got to say, it wasn't exactly what I expected. I thought it might have some blackline masters to create 'flashcards' to be used in a classroom setting (I'm teaching a multilevel ESL class). It's 'above their heads' for what most of the people in this class know, so I would have to simplify the explanations in order to accommodate their level. We'll see how I can put it to use.0 of 0 people found the following review helpful. Two StarsBy RaymondThis book was not helpful!
