...By TheresaExcellent book for helping prepare yourself for an upcoming job interview in any field. Many thought-provoking questions you may not have anticipated. Definite must-read!1 of 1 people found the following review helpful. Generally an informative work good for preparing your mindset for interviewsBy Henrik UtvikDoes exactly what it says on the tin.Generally an informative work good for preparing your mindset for interviews. Can't say that all proposed answers resonated with me (as one could perhaps expect).Does not apply for all industries and some of the content might be outdated in my (albeit rather limited) experience. Although this can also be cultural differences (I'm not an American like the author).The main value I found in this book was to gain awareness about different types of interview questions, and start to prepare my own thought process and answers.2 of 2 people found the following review helpful. Super preparationBy T. BurtonReading through the questions and answers in this book is a fantastic way to prepare for hard interviews. Super way to study for interviews! Content helps you build your self-confidence as you formulate your answers (based on your experience) to the questions. Super preparation!
