From Perfection Learning : 21st Century Synonym and Antonym Finder (21st Century Reference (Pb)) before purchasing it in order to gauge whether or not it would be worth my time, and all praised 21st Century Synonym and Antonym Finder (21st Century Reference (Pb)):

1 of 1 people found the following review helpful. just what we neededBy jubilee readsGreat addition to our homeschool library. Teen son uses it regularly. I love the fact that it is hard bound bc he is rough with his belongings. Great price and decent shipping add to my satisfaction.1 of 1 people found the following review helpful. More than adequateBy JodyThe huge Roget's Thesaurus is gathering dust on my shelf, but I've just about worn out this one. Wordwise, it's not 100% complete, but for convenience, portability and content, it's perfect for my needs. Even if I can't find the exact word I'm searching for (the one maddeningly hovering around the edges of a thought) I can find one that'll do. Who could ask for more? For purists and pedants, this won't take the place of Roget, but it's not supposed to. For the moderately literate on the quest for a precise adjective, it's great (ample, extensive).0 of 0 people found the following review helpful. Homework helperBy Ant CThis should be in your home if you have kids that do homework, and most of us do at some stage. It was very handy in the 1 and 2 grade levels when you are giving a hand. Also later on when they are doing it for themselves and just need that word that they cant find.

Designed for rapid access, this innovative reference helps the reader find the perfect choice of words to get his/her ideas across with impact and accuracy. Specially created for contemporary writers and speakers, it includes essential definitions and avoids outmoded, useless entries.

About the AuthorLexicographer Barbara Ann Kipfer holds a PhD and an MPhil in linguistics from England's University of Exeter and is a pioneer in electronic lexical systems. She has designed and assembled lexicographic references and conducted lexicographic researches for many clients. She is a member of the Dictionary Society of North America, the Association of Computational Linguistics, and the European Association for Lexicography.
