I Am Killer Resume -- Be Afraid!By Glenn FlockWORD-UP!Having recently purchased 16 books on the subject and a professional in the field, I suggest you'll be in deep trouble if one of your competitors reads this book before you.It is, at once, the supreme effort on the market.Best you read it FIRST and learn what makes a "rez-u-may" SELL. (You'll also learn to love "Peanut Butter Sandwiches".)For those intensely serious about a great resume, I suggest two additional five-star books:1. "Gallery of Best Resumes" by David Noble. Terrific examples of excellent layout and design.2. "Resumes for Dummies" by Joyce Kennedy. All around good advice.Follow the suggestions in these three books and you'll consistently write a winning resume.Remember, "WORDS" can change your life.Don't think so? Here are some that will: "Watch Out!", "Call

911!", "Earthquake!", "Guess What.", "I Want Volunteers.", "We're Downsizing.", and "I Do." Still don't think so? Unless you're brain-dead, THESE WORDS will: "Here's Your Pink Slip." "Where's My Parachute?" "I Need A Job." "What time can you come in for an interview?", and "YOU'RE HIRED!" When you hear the above, it's a right proper time to suddenly "Go Forth And Put Asunder". Brandish Vanquish with your secret weapon known as "My Killer Resume". All competitors shall Be Afraid! 9 of 9 people found the following review helpful. An outstanding "how to" resume building guide. By Midwest Book Review In 40 Minute Power Resume, Beverly Hill shows how to create a personal resume that truly separates and showcases your talents, skills, and abilities from those of others. She guides you through the construction of an effective and distinctive resume through a simple step-by-step processes in easy-to-understand language, while enabling you to highlight your own diverse accomplishments and experience in an competent and professional manner. This "hands on" manual provides resume writing insights and practical examples of professional resume building that will prove invaluable for those newly entering the job market, anyone who is re-entering the job market after an absence for family or schooling, as well as those seeking to improve their career opportunities through transferring to a more challenging, lucrative, or career advancing position elsewhere. 10 of 10 people found the following review helpful. NEVER SEEN IT THIS GOOD By Jordan Paulley Beverly Hill has, in my opinion written the BEST resume book I have ever seen. The design is wonderful, by the time you've read the book, you've written your resume. One of my favorite parts was the chapter on Resume Eliminators. It steers you clear of mistakes you might never have known you were making. And the Peanut Butter Principle! I never knew I could make myself look so good, and it's completely honest! What I really love about this book is it's not just a bunch of forms that everyone has seen a million times. It's a system, put down in a clear and simple manner that allows a person to write a truly exceptional resume, in a relatively short amount of time. And it's not a long, drawn out, boring, hard to read manual. It's easy, it's GREAT! Good for you Ms. Hill!

This resume-writing book is the complete guide to preparing your resume in 20 minutes to 2 hours. Learn to beat out the competition through targeted job strategies. Avoid 30 major job search eliminators. Learn the magic Peanut Butter Principle and WIN!

From the Publisher Beverly Hill presents an easy-to-use guide for resume preparation that will get the reader the coveted interviews! The information is current for the job market today. Beverly keeps a hands-on interest in the career search field by daily contact with resume preparation and career development tools for clients. From the Author I want people to be successful! Because I can't reach each and every individual to help them achieve that success, I prepared this book as a guide. From the Back Cover As you journey through this writing, you will find you are cast in the starring role. Have fun and enjoy! I guarantee you will be impressed with your resume. When it is done, review your resume and ask, Would I hire this person? Beverly Hill brings writing expertise as well as the perspective of researcher, coach, corporate consultant, university faculty member and seminar presenter/motivational speaker to this book.
