Successful Money Generating Blog (Business, Income Social Media) (Volume 1):

2 of 2 people found the following review helpful. Fantastic, well-written blogging book!By Mixed BlessingsI am hoping to start blogging soon, so thought I had better start doing some research! This is a FANTASTIC book to do just that. The author suggested things I hadn't even thought of such as finding your niche on the web, "the demographic analysis," and how often to find content. It is well written with few typos or grammatical errors (a pet peeve), is extremely informative, and has a table of contents for quick searching (I'm amazed at how many authors leave this out!). The author obviously has experience in this arena. There are eight chapters in addition to an introduction and conclusion. I have never highlighted a Kindle book before, but this one is marked all up with information I feel is worth referencing again and again. If you are interested in blogging or just learning more before you take that step, I highly recommend this read.3 of 3 people found the following review helpful. This is really a very good guide for the newbie (me)By JayneThis is really a very good guide for the newbie (me). It's led me into further research and is full of pertinent information to get straight prior to plunging into the world of blogging. I am still working my way through this ebook and I plan to update my review as I near the end. I have so much more to learn.3 of 3 people found the following review helpful. Great Book as Intro to BloggingBy CustomerThis was a great book explaining how to start, run, and grow a blog. Lot's of insightful information. It was a quick read also which made it even better.
