LearningExpress LLC Editors : 501 Critical Reading Questions (501 Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised 501 Critical Reading Questions (501 Series):

1 of 1 people found the following review helpful. Some typosBy LarryThis is a good book with some nice reading selections. There are some typos (we've noticed probably five already and have done maybe 20 reading selections in this book). We also came across as incorrect answer in the answers section. I like using this with the students I tutor, but I wish it has been peer reviewed a bit better.0 of 0 people found the following review helpful. Good question and details solutionsBy AhJavery good book for the kids in summer time1 of 1 people found the following review helpful. Five StarsBy niloGreat for test prep. Answers and explanations are included.

The critical reading section on standardized tests, especially the SAT 1 exam, is often cited as a trouble section for even the best test-takers. Examinees get test-targeted reading comprehension practice questions to score better with LearningExpress' series, Skill Builder in Focus. This specialized drill book provides the focused practice necessary for test-taking success. Plus, all answers are explained, using terms that clarify context, main ideas, themes, and critical thinking skills for effective studying and positive reinforcement. Almost every standardized test in verbal skills, including civil service exams, contains reading comprehension questions. Each practice consists of several passages followed by questions and answer explanations.
