Five StarsBy Kimberley GarciaWonderful and useful book. I have it in three languages.12 of 15 people found the following review helpful. Very disappointed!By S BradshawI just received the new edition of the 501 Portuguese Verbs (3rd Edition) and I have to say I'm really

unimpressed. I was hoping it would be similar to the content, quality, and layout of the 501 Spanish Verbs (7th Edition) book (which is excellent). However, it looks like very little time and effort was actually put into this book. It's about as plain as it gets. Very little useful information is given along with each verb except for a few example phrases at the bottom of each page. There is also a general lack of additional helps and information that is abundant in the Spanish edition. Adding insult to injury, it's more expensive than the Spanish edition. You may want to look at this book in a brick and mortar store before deciding whether this will meet your needs. I wish I had. I find this book no more useful than just looking up verb conjugations on the Internet.
