Berlitz Publishing : 601 Spanish Verbs (601 Verbs) before purchasing it in order to gage whether or not it would be worth my time, and all praised 601 Spanish Verbs (601 Verbs):

9 of 9 people found the following review helpful. nice large print, no idioms, no iOS app By KwaiChangI bought this book because it is easier to read than my pocket book. very nice large sized print. handsome design. but this book does not compare to Barron's pocket Verbs by Christopher Kendris. (I am now wondering if there is a full sized Barron's that I should have bought). The Barron's is superior for one simple reason. At the bottom of each page there is a list of

words, sentences, and expressions related to this verb. Very very helpful as some verbs are used in many idiomatic and idiosyncratic ways.also I can find no App, free or paid, on iOS related to this book3 of 3 people found the following review helpful. We tried to find this book at Barnes and Noble ...By lillieluna01We tried to find this book at Barnes and Noble, but they are behind and only have "501 Spanish Verbs." My mom wanted the updated version, and I knew would have it! She loves the book and is constantly referring back to it.4 of 4 people found the following review helpful. Conjugations on Good Paper, but not much into sample sentences.By John M. PattonThis has a lot of verb form conjugations in good layout, and contains a good explanation of the specific verb tenses. This book does not feature verbs in sentences as much as some other verb book does.The Print is very readable, and the Paper is very good. Some verb exercises are included.More sentences would be a useful addition to the conjugations.

Written by experienced teaching professionals, this comprehensive reference work includes 601 verbs, fully conjugated in 16 tenses and moods, as well as more than 2,100 verbs which conjugate after the pattern of the model verbs. Regular endings are highlighted in the text, so students can recognize patterns, and mnemonic devices are provided to help users memorize verbs. A free conjugation app for Apple devices rounds off this one-stop verb reference resource, making it an indispensable tool for language learners of all levels.
